that can cause
cancer later in life

**TALK TO
YOUR DOCTOR**
about which vaccines
you might need.

Are vaccines safe?

Yes! Vaccines are safe AND effective. They're tested before they're recommended.

How much do vaccines cost?

Vaccines are covered by most health insurance plans. That means you can get them free or low-cost.

If you don't have insurance, you or your parents can visit CoverMT.org to get help finding a plan that works for you.
